SUMMARY

Detail-oriented and adaptable developer with experience building scalable web applications. Skilled in React.js, SCSS, Tailwind CSS, and RESTful APIs. Proven ability to enhance legacy systems, work in agile teams, and deliver responsive, accessible interfaces. Focused on clean code, performance optimization, and creating impactful user experiences.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, React.js, Express.js, Django
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Styling & UI:** CSS/SCSS, Tailwind CSS, Responsive Design, Chakra UI, Prime react.
- **AI & Dev Tools :** OpenAI Codex, Google Antigravity, n8n, Git, GitHub, Vite, Chrome DevTools, Figma.
- **Others:** REST APIs, CI/CD Pipelines, AI-Assistant Debugging

WORK EXPERIENCE

Frontend Developer | POCKETPANDIT **Oct 2024 - January 2026**

- Led frontend development of a full-scale application from scratch using a modular, component-based architecture.
- Refactored over 20 legacy components, improving maintainability and reducing page load time.
- Integrated third-party libraries (e.g., Formik, Swiper) for improved UI and accessibility.
- Collaborated with the backend team to implement REST APIs, ensuring seamless data handling and UI updates.
- Implemented modern styling techniques using SCSS, ensuring full responsiveness across devices with mobile-first design principles.

Full Stack Developer | trikonED **Project-Based**

- Built full-stack education platform features using Django, Python, JavaScript, HTML, Tailwind CSS, and database-backed workflows.
- Developed backend logic, Django views/templates, authentication flows, and CRUD modules for application features.
- Created responsive user interfaces and connected frontend screens with Django-powered server-side functionality.
- Managed Git-based development, debugging, and deployment-ready code improvements for the trikonED platform

EDUCATION

June 2022 - Present

Bachelor of Computer Application (BCA)

Bhaktapur Multiple Campus, Nepal
